

**SOLAR WITH BATTERY  
BACKUP**

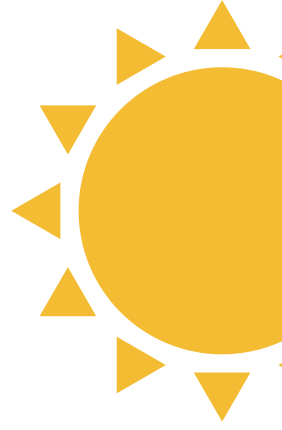

# Solar Power with Energy Storage

**Store Solar Energy and  
Independently Power Your  
Home**

**RAIN OR SHINE YOU'VE GOT  
THE PPWER**

Adding a battery backup to your solar panel system will provide you with additional energy independence and enable you to store backup power for your home during severe weather conditions and blackouts.

**"we can deliver first-class  
products coupled with  
only the highest level of  
service and delivery"**

# We are solar experts!

## GET STARTED WITH SOLAR TODAY

If you want to rest easy knowing that you will have power in the event of an emergency, we can add a battery backup to your solar system design. A solar battery stores energy, detects outages and automatically becomes your home's energy source when the grid goes down.
