

Simple Energy, LLC begins offering solar panel and battery storage installation in Houston, Texas

Simple Energy, LLC wants to help Houston, Texas residents realize the cost-saving benefits of going solar

TEMECULA, Calif. ([PRWEB](#)) March 23, 2021 -- Simple Energy, LLC a leading provider of [residential solar panel systems](#) and a company dedicated to providing access to safe drinking water with every solar installation to developing regions around the world, today announced that it would begin offering [solar panel and battery storage systems](#) in Houston, Texas.

Nick Krahenbuhl, Simple Energy, LLC Co-founder and a Houston resident, made the announcement during a conference call with the GivePower Foundation Monday morning saying, “When you consider the zero up-front cost to install a solar system, the increased property value for having solar panels, and the Texas statewide renewable energy property tax exemption, a [solar and battery storage system](#) begins reducing costs from the day it’s installed.”

The company announced on their website last week that they’ve partnered with the GivePower Power Foundation. Through the GivePower Foundation’s new Solar Water Farm™ desalination technology, a \$20 investment can provide someone in need access to clean and safe water for more than 20 years. Simple Energy, LLC will begin donating \$50 for every solar installation in order to provide clean drinking water to families in need worldwide.

Josh Albert, Simple Energy co-founder added, “Texas is the number one producer of electricity in the nation. We’ll be empowering communities to control their own energy supply while helping to provide clean drinking water for families in need from Haiti to Standing Rock, North Dakota.”
